

Medicine Review Web App

HealthTech

IDEA

- To create a medicine review web app, It is always good to cross check before you take medicine. This is an web app that provides real-time information about compositions and details of the medicine.
- It also provide information about the content, side effects, when it is good to take it, and more.

TECH STACK

HTML

CSS

JS

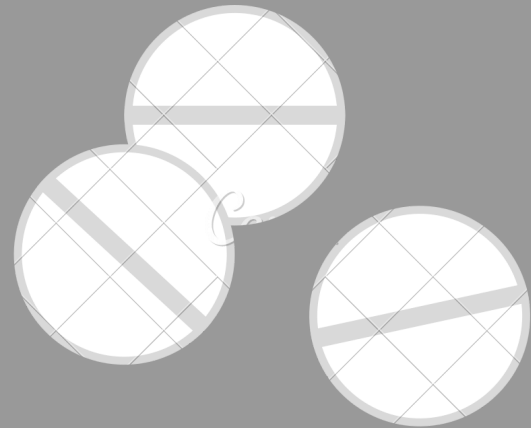

B

**DETAILS OF
MEDICINE/DRUG CAN
BE FOUND.**

01

**DETAILS OF SIDE
EFFECTS BY THE DRUG.**

02

DOSAGE DETAILS.

03

**HELPS FOR KNOWING
THE MEDICINE FORM
DETAILS.**

04

DEPENDENCY

- <https://api.fda.gov/drug/ndc.json> - API to collect drug/medicine details.
- <https://docs.drugbank.com/v1/> - API to collect dosage details
